Impression to the teacher

Professional but also fun and
outgoing, a little strict but fair in
handling the class.

This year, I want to learn more about

- 1 The fundamentals of Java language as well as the how I can practice the concepts of OOP in real life projects.
- 2 Time management and self-control --- mastering these will help me become more productive and intentional.
- 3 MYSELF!! It's important that I get to know myself better than anyone to regulate my emotions and do justifiable actions.
